

All of them had like a laser on us, it was turn off the car, put your hands out the window. , so he put his hands out the window so they could see he didn't have a gun and he said we're going to talk to the sheriff right now. Either you can put a bullet through my head, right now or we're going to talk to the sheriff. And they were like, no and um and a bunch of more guys were coming out and pulling their guns out. And they were like "we have women in the car – it was me and this other girl in the car that I don't know real well, but there was a "get the women out of the car! Get the women out of the car!" (unintelligible) and Ryan Payne, like he was in the front seat. Ryan Payne is amazing. He's incredible. But anyhow, he was like, he put his hands out the window and tried to talk to them, he was like he wanted the guy to just, he was like, I don't know if it's worth it, so he put his hands out the window and said we have women in the car, at least let the women get out and he stuck his head out and they shot at him, but they missed him. He ducked just in time, they didn't hit him, and then he said, " Oh they mean business, they are going to shoot us." So Ryan decided to get out of the car to go talk to them, so he gets out of the car and then the guy tried to talk to them, the driver said, I'm just going to drive and I'm just gonna talk to the sheriff, or shoot me now or let us go, and they were "Get out of the car and put your hands up. But finally, he decided to just drive. We all got doiw[n] on the floorboard and he drove off and then they started firing at us. They were shotting a bunch of times and then they had a roadblock set up and so he ran into a snow bank and they started riddling the car with bullets. And then like when we crashed, we stopped for a second, he (Lavoy) got out of the car and he had his hands in the air, and Unless just shoot me then , and they did, they shot him dead, they shot him right there like there just walking with his hands in the air. And I thought I swear to god my god, just walking with his hands in the air, they shot him dead and after he was down on the ground , they shot him three more times, and then they bombarded our vehicle with bullets. Flying Ryan got hit in the shoulder, we were laying down on the floor board screaming. They gassed us like five times. They kept trying to shoot us, their angle was bad so

we were praying so hard, please stop please stop, please stop, they were riddling us with bullets, they kept gassing us over and over and we couldn't breath because of the gas,

we were trying to find something white, so we could put a white flag out, and then I was trying to see Rynan got hit in the shoulder, he said I don't think it's too bad though, SO we were just trying to find a way to get out. *Hold on. Listen Victoria, I recorded your testimony*, Alright. Yes. *Was he standing* His hands were still up after he was dead. *Okay, They shot him, he went down and they shot him again on the ground* ? Yes, they shot him like at least six times. *"The newspaper reports are just saying that three shots were fired, but that's not true.* NO, are you kidding me? They shot at least a 120 shots probably all together. *OK, but they were shooting the car a lot. What side of the windows were the windows blown out on? . The left ofr the right side.* Left. They kept hitting the right side of the car too, but the windows didn't come out, they were hitting the metal and not the glass. *Ok, so not one shot was fired by any body in the car or by Lavoy?* No, no one even touched their gun. *No one touched their gun.* No one pulled their gun out. NO one touched a gun, we had no rifles. A couple of guys had sidearms on, but no one touched them, in fact they had their hands out the window to show they weren't firing. Nothing We showed no aggression at all.

When Ryan bundy was shot both his hands were out the window and he head was out the window? No, at the time he was on the floor of the car cause that was when they were shooting at the vehicle. We couldn't get out of the car or we would have been dead. *Right, Ok, so . How many police vehicles or how many vehicles would you say were involved in this encounter? Ah, FBI vehicles etc* Un, you know, I didn't count I was really shaken up when I got out, but we all noted they were a ton a vehicles. I don't know maybe 40 altogether? There were tons and there

were people in the trees it was an ambush set up and ambush or something cause it was snipers and people in the trees cause we saw them they were all pointing their lasers, I had like 20 lasers on me when I was getting out of the car, *OK, so Lavoy got out of the driver's seat . . .* When he crashed into the snow bank, he immediately got out of the car,, and he had his hands in the air and it was like “ Just shoot me then because he didn't want to go down he did not want to die, he had his hands in the air, and said, “ Are you just gonna shoot me? And then they just shot him, *And, how many shots would you say that were fired when they shot him the first time?* The first time he got shot? *When they shot him did you hear multiple rounds?*

Yes I did. he got hit by several people – it was simultaneous. We were like “ what? We couldn't believe it, it was it shocked us because he had his hands in the air, We couldn't believe they were actually going to shoot him. And like what? Is he dead? is he dead And I was like, we knew that he had gotten shot and I screamed get help I just want to help him then they started firing at the car the vehicle again and they wouldn't let us out. Oh it was so scary

About how long would you say they started firing at the car before it finally stopped? Some where between five and ten minutes. (unintelligible) *Victoria we're gonna be praying for you. I have this recorded because I fear for your life, You are one of the few people, you're not under arrest but you are a direct witness to what happened, so I wanted to get this down.*

I wanted to document this as well as I could. So Levoy was driving the car and Ryan was in the front seat? No, Ryan Payne was in the front seat but during the incident, he got out when they first stopped us. He stopped in the middle of the road and told them we we're going to talk to the sheriff and when they fired the first shot - it was actually at that point - Ryan payne had both his hands out the window and his head and they shot at him. *That was the first shot?* That was the first shot. And that's when we knew they meant business that they were serious and that they, . . .I'm talking so much . . . (the guy is recording in case)

That was the first shot, so he ended up getting out of the car, cause they stopped shooting, hye got out of the car and then after we started driving again, that's when they started shooting again, . .but we had lasers on us the whole time, they were ready to shoot. *Ok, so Ryan got out of the car, did he ever get back in the car before you took off?* No.He was arrested, or he was taken into custody at least cause [when] all of us were taken into custody, he was with us. We all got transferred together and then they separated all of us. *And that's Ryan Payne you're talking about.* Yes. *Where was Ryan Bundy?* He was in the back seat of the car besides me. I was actually fallen asleep on him right when we got pulled over I was asleep and I woke up and the whole thing started going down,

He was sitting to the left of me, *So you were in the middle?* Yes, Shana Cox was on my right.

Shauma Cox on your right, Ryan Bundy on your left, and you were heading to go see the Sheriff? We were going to this meeting that was going on, all of us meeting at was going on, so all of us (unintelligible) the sheriff was gonna be there and a bunch of ranchers and we were going to try to talk and maybe do some negotiations, and we were gonna sing and that was all and we were ambushed, I mean it was known that we were gonna go so they probably decided to use that area maybe because it was really wooded and everything we didn't have any phone service so, *OK, so listen I'm going to be up, so if you want to call me at any time during this, OK, because I can't do much, I can pray for your guys, I can also try to document as best as possible to make sure that um this story is not, because right now the media is reporting that three shots were fired.* Oh nbo, that's a total lie, but the media this story right now the media is reporting that three shots were fired, that's a total lie, but of course the media is going to report that. Are you kidding me? Have you seen the car, have you seen the vehicle?, it was completely covered with gunshots. *Well, no, they're not going to release that because they don't want . . .* he's probably got (unintelligible) holes in himself. *Do you want this story to get out?* Absolutely. *Ok, I'm gonna stop the recording and see how it's coming out, to see how it* I'm gonna

stop the recording and see how well it's turning out if I can hear you clearly, I am willing to get this out there to any media outlet I can, possibly independent media, I need to know is your family at the refuge? No, I need to go.
